Free Workshops

Delivered in your school by Groundwork

**Four STEM workshops on the Green Economy
Linked to Key Stage 3 Science and Geography Curriculum**

1: What is the Green Economy?

Green jobs and the issues surrounding climate change, sustainability and population growth.

2: Design a Sustainable City

Students evaluate green technologies and enjoy a group challenge to design a sustainable city.

3: Create a Wind Turbine

Students learn team skills as they design and build a working turbine to generate clean electricity.

4: Create a Greener Playground

Members of the Landscape Institute give real-life design tasks focused on flood prevention.

A flexible programme

- No teacher prep needed, we provide all materials.
- Workshops are usually 1 hour but can be adjusted to suit your time table.
- Option for double lessons.
- Suitable for a full class or smaller groups
- Book 1 or more workshop.

Proven track record

- Groundwork London is one of the 20 biggest charities in the UK. We have delivered over 100 education projects in London,
- All staff are fully trained, DBS checked, insured, and proficient in first aid.
